(apply to the G-788, G-787, G-733 models only) 3, Channel Manual Selection: Press "Menu" twice and press "Select" to change the group of group group Frequency. Press "Menu" three times and press "Select" to change the frequency channel number, how to synchronize the wireless UHF transmitter to the receiver? 1, turn on the receiver and transmitter.2, open the Battery compartment transmitter to display the infrared port (IR), with the IR port exposed to the receiver in 15 cm (after, press "ACT" or "Set" button on the receiver. After the transmitter light, flash green and Red, the transmitter frequency will be automatically set to the same frequency of the receiver.3, follow the same steps to sync other transmitters with the other receiver channels.4, make sure that only one transmitter IR port is exposed when synchronizing a system, how to configure multiple UHF wireless microphone systems? 1, activate all receivers and all transmitters off.2, set all receivers to the different frequencies. (C-1) 2, Å Program the Receiver with the frequency mode "Master List ". (D-2) B, How to block and unlock the drive? (Apply models G-733, G-788, G-787) 1) 1, press the "Menu" and "Select" buttons at the same time to lock Or unlock the receiver, press the "MUTE" and "Select" buttons at the same time to lock or unlock the transmitter.c, how to change the frequency of a UHF receiver? 1, Automatic frequency selection: Press "menu" once Then press "Select" once, the receiver will automatically scan an available channel.2. "MENU's MODO MODO MODO DOWN "MENU" CINCO AT Press "Select", the receiver will be in the "Main List" mode. Built-in tone lock squelch circuit protection against rf interference Automatic frequency scanning to find and set the best configuration of the automatic chanel transmitter available, the transmitter and receiver channel can easily synchronize the four channel receiver, fourcan be used at the same time Four individual XLR outputs and a mixed 1/4" outputVolume Control on each channel Frequency: UHF 550MHz - 590MHz (FCC New Frequency Regis) Frequency Response: .35Hz ~ 18KHz Battery life: 12 hours (AA batteries) Range: AT © 600 Pã © S (200 meters ) Rack Mountable. 19 "Rack Power 110V-220V Condition (new) new items sold by an authorized dealer or original builder and include the entire original packaging.learn MaisbrandModelFinishcaregoriesmade in F1B4B5B970B05A4635A7E752F1 A Causes of the part of the flag in the signaling area in the signaling area in the F1B4B5B1C7070B05A46A9E752F1 A, interfer. , G-733, G-788, G-787) 1, use the automatic frequency selection function to select the clearest frequency channel of your area. Frequency "Master List" TäªM Minor Design Squelch to avoid interfering.
